

BUYER'S QUESTIONNAIRE

Buyers usually have to spend a lot of unnecessary time running around looking at facilities of absolutely no interest to them. This can be very frustrating, and could be avoided, by correct screening by the agent. The more a knowledgeable agent knows about the buyers' requirements, the more effective the buying process will become. This is specially true for equine facilities and the attached questionnaire could make the entire process more effective. Please note, there are many other questions, but the answers to these questions will be sufficient for an initial screening.
